*Community Health and Counseling Services*

# Resource Parent Care Team

## About Us

The RPCT program provides individualized services designed to help families manage the unique challenges of **foster, adoption, and kinship care**.

Services are provided by licensed social workers and licensed mental health clinicians at no cost to the family.

### Who Is It For?

RPCT services are for resource families and focus on providing a service that is designed solely for you. The child(ren) in your care may receive services via other DHHS programs and providers.

### What Services Will I Receive?

#### Liaison Support

Licensed Social Workers provide information about community resources, general support, and problem solving assistance.

#### Clinical In Home Services

Clinical support is provided by a licensed mental health clinician and offered at no cost.

### How Do I Sign Up?

Contact your DHHS Caseworker or contact the Liaison in your area directly.

## About Us

The RPCT program provides individualized services designed to help families manage the unique challenges of **foster, adoption, and kinship care**.

Services are provided by licensed social workers and licensed mental health clinicians at no cost to the family.

### Who Is It For?

RPCT services are for resource families and focus on providing a service that is designed solely for you. The child(ren) in your care may receive services via other DHHS programs and providers.

### What Services Will I Receive?

#### Liaison Support:

Our Liaisons serve as a bridge between Resource Parents and DHHS. The Liaisons are located in local DHHS offices and are available by phone and email. Liaisons help enhance communication amongst resource families, OCFS staff, and community-based providers. They provide information about community resources, general support, and problem-solving assistance. All resource families are eligible for the service provided by the Liaison assigned to your area.

#### Clinical In Home Services:

Clinical support is provided by a licensed mental health clinician and offered at no cost. Clinical services provide confidential education and support related to the complex experiences of resource families including managing difficult behavior, grief and loss, trauma, attachment, community resources, and many more.

## How Long Can I Receive Services?

There is no limit on accessing the RPCT Liaison. Liaisons are always available to respond to phone calls and emails, answer questions, and triage needs related to placements.

Clinical in-home services are limited to 12 sessions but can be received more than once based on a change in needs. Services are available at an intensity and duration that best meets the resource family's needs.

## Who Decides What Services I Receive?

RPCT is a voluntary program. You determine what your family needs to be successful. We encourage the use of our Liaison services to talk about day-to-day concerns and ask questions as this can help families feel more supported and confident in caring for children.

## How Often Will I Receive RPCT Services?

Families will receive a phone call from the Resource Parent Liaison within three days of each new placement. If the family chooses, Liaisons will complete a referral for in-home services and an intake assessment will be scheduled with the in-home clinician within 14 days. Clinical in-home services will occur once per month, at minimum.

## How Do I Sign Up?

Contact your DHHS Caseworker or contact the Liaison in your area directly or you can fill out the form by clicking the link below:
